

**South Somerset District Council**

*Notice of Meeting*

# Audit Committee

*Making a difference where it counts*

**Thursday 27th April 2017**

**10.00 am**

**The Coker Room, Council Offices,  
Brympton Way, Yeovil BA20 2HT**

(disabled access and a hearing loop are available at this meeting venue)

---

The following members are requested to attend the meeting:

**Chairman:** Derek Yeomans  
**Vice-chairman:** Tony Lock

Jason Baker  
Mike Beech  
Mike Best

Carol Goodall  
Val Keitch  
Graham Middleton

David Norris  
Colin Winder

If you would like any further information on the items to be discussed, please contact the Democratic Services Officer on 01935 462596 or [democracy@southsomerset.gov.uk](mailto:democracy@southsomerset.gov.uk)

This Agenda was issued on Wednesday 19 April 2017.

**Ian Clarke, Director (SupportServices)**

This information is also available on our website  
[www.southsomerset.gov.uk](http://www.southsomerset.gov.uk) and via the mod.gov app

INVESTORS IN PEOPLE

## **Information for the Public**

The purpose of the Audit Committee is to provide independent assurance of the adequacy of the risk management framework and the associated control environment, independent scrutiny of the authority's financial and non-financial performance, to the extent that it affects the authority's exposure to risk and weakens the control environment and to oversee the financial reporting process.

The Audit Committee should review the Code of Corporate Governance seeking assurance where appropriate from the Executive or referring matters to management on the scrutiny function.

The terms of reference of the Audit Committee are:

### **Internal Audit Activity**

1. To approve the Internal Audit Charter and annual Internal Audit Plan;
2. To receive quarterly summaries of Internal Audit reports and seek assurance from management that action has been taken;
3. To receive an annual summary report and opinion, and consider the level of assurance it provides on the council's governance arrangements;
4. To monitor the action plans for Internal Audit reports assessed as "partial" or "no assurance;"
5. To consider specific internal audit reports as requested by the Head of Internal Audit, and monitor the implementation of agreed management actions;
6. To receive an annual report to review the effectiveness of internal audit to ensure compliance with statutory requirements and the level of assurance it provides on the council's governance arrangements;

### **External Audit Activity**

7. To consider and note the annual external Audit Plan and Fees;
8. To consider the reports of external audit including the Annual Audit Letter and seek assurance from management that action has been taken;

### **Regulatory Framework**

9. To consider the effectiveness of SSDC's risk management arrangements, the control environment and associated anti-fraud and corruption arrangements and seek assurance from management that action is being taken;
10. To review the Annual Governance Statement (AGS) and monitor associated action plans;
11. To review the Local Code of Corporate Governance and ensure it reflects best governance practice. This will include regular reviews of part of the Council's Constitution and an overview of risk management;
12. To receive reports from management on the promotion of good corporate governance;

### **Financial Management and Accounts**

13. To review and approve the annual Statement of Accounts, external auditor's opinion and reports to members and monitor management action in response to issues raised;

14. To provide a scrutiny role in Treasury Management matters including regular monitoring of treasury activity and practices. The committee will also review and recommend the Annual Treasury Management Strategy Statement and Investment Strategy, MRP Strategy, and Prudential Indicators to Council;
15. To review and recommend to Council changes to Financial Procedure Rules and Procurement Procedure Rules;

### **Overall Governance**

16. The Audit Committee can request of the Assistant Director – Finance and Corporate Services (S151 Officer), the Assistant Director – Legal and Corporate Services (the Monitoring Officer), or the Chief Executive (Head of Paid Services) a report (including an independent review) on any matter covered within these Terms of Reference;
17. The Audit Committee will request action through District Executive if any issue remains unresolved;
18. The Audit Committee will report to each full Council a summary of its activities.

Meetings of the Audit Committee are usually held monthly including at least one meeting with the Council's external auditor, although in practice the external auditor attends more frequently.

Agendas and minutes of this committee are published on the Council's website at [www.southsomerset.gov.uk](http://www.southsomerset.gov.uk)

Agendas and minutes can also be viewed via the mod.gov app (free) available for iPads and Android devices. Search for 'mod.gov' in the app store for your device and select 'South Somerset' from the list of publishers and then select the committees of interest. A wi-fi signal will be required for a very short time to download an agenda but once downloaded, documents will be viewable offline.

### **Members questions on reports prior to the Meeting**

Members of the Committee are requested to contact report authors on points of clarification prior to the Committee meeting.

### **Recording and photography at council meetings**

Recording of council meetings is permitted, however anyone wishing to do so should let the Chairperson of the meeting know prior to the start of the meeting. The recording should be overt and clearly visible to anyone at the meeting, but non-disruptive. If someone is recording the meeting, the Chairman will make an announcement at the beginning of the meeting. If anyone making public representation does not wish to be recorded they must let the Chairperson know.

The full 'Policy on Audio/Visual Recording and Photography at Council Meetings' can be viewed online at:

<http://modgov.southsomerset.gov.uk/documents/s3327/Policy%20on%20the%20recording%20of%20council%20meetings.pdf>

# Audit Committee

Thursday 27 April 2017

## Agenda

### *Preliminary Items*

**1. Minutes**

To approve as a correct record the minutes of the previous meeting held on Thursday 23<sup>rd</sup> March at 10am.

**2. Apologies for absence**

**3. Declarations of Interest**

In accordance with the Council's current Code of Conduct (as amended 26 February 2015), which includes all the provisions relating to Disclosable Pecuniary Interests (DPI), personal and prejudicial interests, Members are asked to declare any DPI and also any personal interests (and whether or not such personal interests are also "prejudicial") in relation to any matter on the agenda for this meeting.

**4. Public question time**

**5. Date of next meeting**

Councillors are requested to note that the next Audit Committee meeting is scheduled to be held at 10.00am on Thursday 25<sup>th</sup> May in the Alford Room, Brympton Way, Yeovil.

### *Items for Discussion*

**6. E:Procurement - Verbal Update (Page 5)**

**7. Risk Management/Procurement Strategy - Verbal Update (Page 6)**

**8. Accounting Policies for 2016/17 Statement of Accounts (Pages 7 - 23)**

**9. External Audit Plan for 2017-18 (Pages 24 - 45)**

**10. Audit Committee Forward Plan (Pages 46 - 47)**

# Agenda Item 6

## **E:Procurement Update**

*Director: Ian Clarke, Support Services*  
*Lead Officer: Gary Russ, Procurement and Risk Manager*  
*Contact Details: gary.russ@southsomerset.gov.uk or (01935) 462076*

### **Purpose of the Report**

The Procurement and Risk Manager will provide a verbal update on the E:Procurement policy.

---

# Agenda Item 7

## **Risk Management Update/Procurement Strategy Update**

*Director:* Ian Clarke, Support Services  
*Lead Officer:* Gary Russ, Procurement and Risk Manager  
*Contact Details:* gary.russ@southsomerset.gov.uk or (01935) 462076

### **Purpose of the Report**

The Procurement and Risk Manager will provide a verbal update on the Risk Management Policy and the Procurement Strategy.

---

# Agenda Item 8

## **Accounting Policies for 2016/17 Statement of Accounts**

*Director: Ian Clarke (Support Services)*  
*Lead Officer: Karen Gubbins, Principal Accountant*  
*Contact Details: Karen.gubbins@southsomerset.gov.uk or 01935 462456*

### **Purpose of the Report**

To request that members of the Audit Committee approve the Accounting Policies for 2016/17 so that the Statement of Accounts 2016/17 can be prepared on this bases.

### **Recommendations**

That members approve the Accounting Policies.

### **Background**

It is a statutory requirement for all local authorities to produce financial statements that are compliant with International Financial Reporting Standards (IFRS). In order to prepare IFRS compliant accounts for 2016/17, the Council needs to revise its accounting policies.

The proposed Accounting Policies are attached in Appendix 1.

### **Key Accounting Policy Changes**

There are no new accounting policies for 2016/17.

### **Financial Implications**

There are no financial implications in accepting this report and the associated recommendations.

**Background Papers:** *Code of Practice on Local Authority Accounting in the United Kingdom 2016/17:  
Guidance Notes for Practitioners*

**Accounting Policies****1. General Principles**

The Statement of Accounts summarises the Council's transactions for the 2016/17 financial year and its position at the year-end of 31 March 2017. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015, which those regulations require to be prepared in accordance with proper accounting practices. These practices under Section 21 of the 2003 Act primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2016/17, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under section 12 of the 2003 Act.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

**2. Accruals of Income and Expenditure**

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Authority transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

**3. Cash and Cash Equivalents**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. SSDC will include deposits in Money Market Funds and Business Reserves in Cash Equivalents.

In the Cash Flow Statement, cash and cash equivalents are shown net of the bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

#### **4. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors**

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting the opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

#### **5. Charges to Revenue for Non-Current Assets**

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the real cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service.
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off.
- Amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to cover depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the authority in accordance with statutory guidance.

Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution to the General Fund Balance (MRP), by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

#### **6. Employee Benefits**

##### **Benefits Payable During Employment**

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

## **Termination Benefits**

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service segment or, where applicable, to a corporate service segment at the earlier of when the authority can no longer withdraw the offer or those benefits or when the authority recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

## **Post Employment Benefits**

Employees of the Authority are members of the Local Government Pension Scheme administered by Somerset County Council, which provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Authority.

## **The Local Government Pension Scheme**

The Local Government Pension Scheme is accounted for as a defined benefits scheme.

- The liabilities of the Somerset County Council Pension Scheme attributable to the Council are included in the balance sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to the retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate based on the yield at the 19 year point on the Merrill Lynch AA rated corporate bond curve.
- The assets of the Somerset County Council Pension Fund attributable to the Council are included in the balance sheet at their fair value:
  - quoted securities - current bid price.
  - unquoted securities – professional estimate
  - unitised securities – current bid price
  - property – market value

The change in the net pensions liability is analysed into the following components:

- Service Cost Comprising:
  - Current service cost – the increase in liabilities as a result of years of service earned this year is allocated to the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
  - Past service costs – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years is debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement.
  - Net interest on the net defined benefit liability, ie net interest expense for the authority – the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the

Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability at the beginning of the period – taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments.

- Remeasurements Comprising:
  - The return on plan assets – excluding amounts included in net interest on the net defined benefit liability – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
  - Actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- Contributions paid to the Somerset County Council Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the Pension Fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the Pension Fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

### **Discretionary Benefits**

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

## **7. Events after the Balance Sheet Date**

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events
- Those that are indicative of conditions that arose after the reporting period – the Statements of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

## **8. Financial Instruments**

### **Financial Liabilities**

Financial liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest of the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

This means that the amount presented in the Balance Sheet is the outstanding principal repayable and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over a minimum period equal to the outstanding term on the loan or 10 years (if shorter) against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

### **Financial Assets**

Financial assets are classified into two types:

- Loans and receivables - assets that have fixed or determinable payments but are not quoted in an active market
- Available-for-sale assets - assets that have a quoted market price and/or do not have fixed or determinable payments

### **Loans and Receivables**

Loans and receivables are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. This means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

### **Available-for-sale Assets**

Available-for-sale assets are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council.

Assets are maintained in the Balance Sheet at fair value. Values are based on the following techniques:

- Instruments with quoted market prices – the market price
- Other instruments with fixed and determinable payments – discounted cashflow analysis
- Equity shares with no quoted market prices – multiple valuation techniques (which include market approach, income approach and cost approach)

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the authority can access at the measurement date
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly
- Level 3 inputs – unobservable inputs for the asset

Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available-for Sale Financial Assets. The exception is where impairment losses have been incurred - these are debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available-for-Sale Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available-for-Sale Reserve.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses)

## **9. Government Grants and Contributions**

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Authority when there is reasonable assurance that:

- The authority will comply with the conditions attached to the payments, and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income and Expenditure (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

### **Community Infrastructure Levy**

The authority has elected to charge a Community Infrastructure Levy (CIL). The levy will be charged on new builds (chargeable developments for the authority) with appropriate planning consent. The Council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund a number of infrastructure projects (these include transport, flood defences and schools) to support the development in the area.

CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with the accounting policy for government grants and contributions set out above. CIL charges will be largely used to fund capital expenditure.

## **10. Intangible Assets**

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) are capitalised at cost when it is expected that future economic benefits or service potential will flow from the intangible asset to the Authority.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Authority can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might have fallen in value – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on

the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

## **11. Inventories and Long Term Contracts**

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using the FIFO (first in first out) costing formula.

Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

## **12. Leases**

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and building elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

### **The Authority as Lessee**

#### **Finance Leases**

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for acquisition of the interest in the property, plant and equipment - applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, plant and equipment recognised under finance leases are accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the authority at the end of the lease period)

The Authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

#### **Operating Leases**

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (eg there is a rent-free period at the commencement of the lease).

## **The Authority as Lessor**

### **Finance Lease**

Where the Authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Authority's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals are apportioned between:

- a charge for acquisition of the interest in the property - applied to write down the lease debtor (together with premiums received), and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

### **Operating Leases**

When the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

## **13. Overheads and Support Services**

The costs of overheads and support services are charged to service segments in accordance with the authority's arrangements for accountability and financial performance.

## **14. Investment Properties**

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, being the price that would be received to sell such an asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest and best use. Properties are not depreciated but are valued annually according to market conditions at the year end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and the Capital Receipts Reserve.

## **15. Joint Operations**

Joint operations are arrangements where the parties that have control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement. The activities undertaken by the Authority in conjunction with other joint operators involve the use of the assets and resources of those joint operators. In relation to its interest in a joint operation, the Authority as a joint operator recognises:

- Its assets, including its share of any assets held jointly
- Its liabilities, including its share of any liabilities incurred jointly
- Its revenue from the sale of its share of the output arising from the joint operation
- Its share of the revenue from the sale of the output by the joint operation
- Its expenses, including its share of any expenses incurred jointly.

## **16. Property, Plant and Equipment**

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

### **Recognition**

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred. There are two exceptions to this:

- The expenditure incurred is below £10,000, except Capital Grants where the limit is £1,000. In such cases expenditure is charged direct to the revenue accounts.
- The asset is acquired through an operating lease when rental payments are charged to the revenue account.

## **Measurement**

Assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use (such as purchase price; any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management).

Assets are then carried in the Balance Sheet using the following measurement basis:

- Infrastructure, community assets and assets under construction – depreciated historical cost
- All other assets – fair value, determined as the amount that would be paid for the asset in existing use (existing use value – EUV).

Where there is no market based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Assets included in the balance sheet at current value are re-valued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Surplus or Deficit on the Provision of Services where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against the balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Capital expenditure incurred in enhancing assets or increasing their useful life is classed as enhancing expenditure.

Assets which have been significantly enhanced are brought forward in the five-year rolling programme to ensure that the independent valuer can correctly assess their new carrying value, this ensures that any potential overstatement only reflects a short timing difference between the enhancement taking place and the valuer assessing its impact on the asset's carrying value.

## **Impairment**

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)

- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

### **Depreciation**

Depreciation is provided for on all assets with a determinable finite life (except for investment properties), by allocating the value of the assets in the balance sheet over the periods expected to benefit from their use.

Depreciation is calculated on the following bases:

- Dwellings and other buildings – straight-line allocation over the useful life of the property as estimated by the valuer.
- Vehicles, plant and equipment - straight-line allocation over the life of the asset.
- Infrastructure – straight-line allocation over the life of the asset.

The following standard estimated lives are used for newly acquired assets:

	Years
Office Buildings	60
Public Conveniences	50
Sports and Leisure Centres	40
Vehicles	10
Cremators	10

Where an asset includes a number of components with significantly different asset lives, these components are then treated as separate assets and depreciated over their own useful economic lives. See Component Accounting policy.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Assets that are sold during the year are treated as if sold on 31 March and the service accounts receive a full year's charge for depreciation as appropriate. Assets acquired during the year attract no charge.

### **Disposals and Non-current Assets Held for Sale**

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any losses previously recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts in excess of £10,000 received from disposals are categorised as capital receipts and credited to the Capital Receipts Reserve, which can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement. If the proceeds are £10,000 or less, they are not treated as capital receipts but are instead credited to revenue.

The written off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

A proportion of receipts relating to housing disposals is payable to the Government. In practice this relates only to mortgage repayments, 75% of which must be paid over to the Government.

## **17. Component Accounting**

Components of non-current assets do not always have the same useful lives and may depreciate or wear out at different rates throughout their life. Therefore, it is appropriate to depreciate each significant component separately over its useful life, in order that the Comprehensive Income & Expenditure Account is fairly charged with the consumption of economic benefits of those assets.

Where a significant component is expected to wear out more quickly than the overall asset, it is depreciated over a shorter period of time and any subsequent expenditure on restoring or replacing the component is capitalised (with any carrying amount of the replaced component being written off to the Comprehensive Income and Expenditure Statement).

From 1st April 2010, components will be recognised when an asset is enhanced, acquired or re-valued. Where a component is replaced or restored, the carrying amount of the old component is derecognised.

- Land and individual buildings will be valued separately.
- Assets are deemed to be material and considered for componentisation when the cost or value in the Balance Sheet is at least £500,000 (approximately 1% of the authority's non current assets).

- Each asset will be reviewed individually by the valuer to determine whether any part of a material asset has a differing useful life or method of depreciation. The assets will be reviewed by the following:
  - Sub Structure
  - Superstructure (frame, upper floors, roof, stairs, external walls, windows, external doors, internal walls, partitions, internal doors)
  - Internal finishes (walls, floors and ceilings)
  - Fixtures (sanitary, water, disposal equipment)
  - Engineering services (heating, air treatment, gas installations, lifts, protective, communications)
  - External works
- Where component spend is worth 20% of the total cost value of the asset it is deemed to be significant. Where information is not readily available to determine the value of components, a best estimate will be accounted for and detail of how the estimate was arrived at, in liaison with relevant professional advice, will be documented.

## **18. Heritage Assets**

A heritage asset is an asset with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture. There is no requirement for valuations for heritage assets to be verified by external auditors, nor is there any prescribed minimum period between valuations. Where the cost of obtaining valuation information is not commensurate with the benefits, the Council will not recognise these assets in the Balance Sheet.

The Council's heritage assets are predominantly the museum stock that is held at the Community Heritage Access Centre (CHAC).

The Authority recognises these collections on the Balance Sheet using its base as the detailed insurance valuations held by the Authority in respect of the collections. The collections are deemed to have indeterminate lives; hence the Authority does not consider it appropriate to charge depreciation.

The carrying amounts of heritage assets are reviewed where there is evidence of impairment for heritage assets, e.g. where an item has suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any impairment is recognised and measured in accordance with the Authority's general policies on impairment. Disposals of any heritage assets are accounted for in accordance with the Authority's general provisions relating to the disposal of property, plant and equipment. Disposal proceeds are disclosed separately in the notes to the financial statements and are accounted for in accordance with statutory accounting requirements relating to capital expenditure and capital receipts.

## **19. Provisions, Contingent Liabilities and Contingent Assets**

### **Provisions**

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement when the authority has an obligation, and are measured at the best

estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the balance sheet. Estimated settlements are reviewed at the end of each financial year; where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payments required to settle a provision are expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the authority settle the obligation.

### **Contingent Liabilities**

A contingent liability arises where an event has taken place that gives the authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the Council's control. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

### **Contingent Assets**

A contingent asset arises where an event has taken place that gives the authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority.

Contingent assets are not recognised in the balance Sheets but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

## **20. Reserves**

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then transferred back into the General Fund Balance so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, local taxation, retirement and employee benefits and do not represent usable resources for the Authority.

## **21. Revenue Expenditure Funded from Capital Under Statute**

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of non-current assets has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so there is no impact on the level of council tax.

## **22. VAT**

The Council does not include VAT as part of income or expenditure, whether of a capital or revenue nature except where it is not able to recover VAT.

### **23. Related Party Transactions**

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council.

The materiality of the transaction has been considered before justifying inclusion in the statements. Transactions disclosed elsewhere in the statement of accounts are not cross referenced in the note. Disclosure is only required where the Council has gone beyond providing financial assistance to having a relationship with the assisted organisation that allows it to exert control over the organisation's financial and operational policies.

### **24. Council Tax and Non Domestic Rates**

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (ie the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

#### **Accounting for Council Tax and National Non-Domestic Rates**

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the authority's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the authority's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the authority's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

# Agenda Item 9

## **External Audit Plan for 2017/18**

*Director:* Ian Clarke, Support Services  
*Lead Officer:* Karen Gubbins, Principal Accountant  
*Contact Details:* Karen.gubbins@southsomerset.gov.uk or (01935) 462456

### **Purpose of the report**

This report introduces the Audit Plan for 2017/18.

### **Recommendations**

The Audit Committee is asked to:

- (1) Note the Audit Plan for 2017/18.

### **Introduction**

The Audit Plan is included within the remit of the Audit Committee under its terms of reference as follows:

“To consider and note the annual external Audit Plan and fees”.

### **The Audit Plan**

The Plan shows the challenges and opportunities the Council faces and the response to those from our external auditors. It shows that the audit will focus on risks and the assessment of those risks and testing that will be carried out by the auditors. It also updates the committee on work carried out to date.

### **Financial Implications**

A budget of £61,650 is allocated in 2017/18 to fund this work. The estimated fees outlined by Grant Thornton are £59,769 including grant certification.

### **Background Papers**

27/04/2017

Dear Members of the Audit Committee

**Audit Plan for South Somerset District Council for the year ending 31 March 2017**

This Audit Plan sets out for the benefit of those charged with governance (in the case of South Somerset District Council, the Audit Committee), an overview of the planned scope and timing of the audit, as required by International Standard on Auditing (UK & Ireland) 260. This document is to help you understand the consequences of our work, discuss issues of risk and the concept of materiality with us, and identify any areas where you may request us to undertake additional procedures. It also helps us gain a better understanding of the Council and your environment. The contents of the Plan have been discussed with management.

We are required to perform our audit in line with Local Audit and Accountability Act 2014 and in accordance with the Code of Practice issued by the National Audit Office (NAO) on behalf of the Comptroller and Auditor General in April 2015. Our responsibilities under the Code are to:

Page 25  
- give an opinion on the Council's financial statements

- satisfy ourselves the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

As auditors we are responsible for performing the audit, in accordance with International Standards on Auditing (UK & Ireland), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance. The audit of the financial statements does not relieve management or those charged with governance of their responsibilities for the preparation of the financial statements which give a true and fair view.

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change. In particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

We look forward to working with you during the course of the audit.

Yours sincerely

Elizabeth Cave

Engagement Lead

**Chartered Accountants**

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No. OC307742. Registered office: Grant Thornton House, Melton Street, Euston Square, London NW1 2EP. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority.

Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTL). GTL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions. Please see grant-thornton.co.uk for further details.

# Understanding your business and key developments

## Developments

### Delivery of Medium Term Financial Strategy (MTFS)

The Council is facing a deficit of £2.7m by 2021, highlighted in its MTFS. The Council has a sound strategy detailed in its MTFS which sets out its plans for the managed use of balances over the next five years.

The Council has strategies in place in order to achieve a balanced budget, including a 5 year council tax strategy and business transformation within services. The Council needs to ensure these strategies remain fit for purpose to achieve its challenging financial targets.

### Transformation Programme

The Council has embarked on an ambitious transformation programme that will change the way services are delivered to the local population, and will require a fundamental reorganisation of the Council. It is envisaged that the transformation programme will save the Council £2.1 million across the life of the MTFS. The costs of the programme have been estimated at £4 million of which £2.5 million relates to redundancy costs. The Council has implemented a governance process to deliver the programme. To date the key changes are at senior management level where the current six assistant director posts have been reduced to three. As a result of this change the S151 officer has left the Council and the role is being covered on an interim basis.

## Key challenges

### Autumn Statement

The Chancellor detailed plans in the Autumn Statement to increase funding for housing and Infrastructure. Further changes to the calculation and application of the New Homes Bonus policy will directly affect the Council. The change will reduce the funding period from six to five years in 2017/18 and then four years thereafter. Further the continued consultation over retention of business rates does not provide any assurance or clarity to the Council over future funding streams.

## Key performance indicators

Measure	Target 2016/17	Y/E Forecast 2016/17
Outturn	£17,219k	£17,492k (Q3)
Savings plans	£980k	£747k (Q3)
Percentage of Council Tax Collected	97%	97% (Q3)

## Financial reporting changes

### CIPFA Code of Practice 2016/17 (the Code)

Changes to the Code in 2016/17 reflect the aims of the 'Telling the Story' project, to streamline the financial statements to be more in line with internal organisational reporting and improve accessibility to the reader of the financial statements.

The changes affect the presentation of the Comprehensive Income and Expenditure Statement and the Movement in Reserves Statements, segmental reporting disclosures and a new Expenditure and Funding Analysis note has been introduced. The Code also requires these amendments to be reflected in the 2015/16 comparatives by way of a prior period adjustment.

### Earlier closedown

The Accounts and Audit Regulations 2015 require councils to bring forward the approval and audit of financial statements to 31 July by the 2017/2018 financial year.

In line with the 2015/16 approach, we are working towards completing the 2016/17 audit by the end of July this year to comply in advance with the 2017/18 deadline. The Audit Committee is currently planned for 27 July 2017.

## Our response

- We aim to complete all our substantive audit work of your financial statements by 27 July 2017
- As part of our opinion on your financial statements, we will consider whether your financial statements accurately reflect the financial reporting changes in the 2016/17 Code
- We will review the Council's progress in managing its responsibilities for working with partners, as part of our work in reaching our VFM conclusion..
- We will review the transformation programme governance and the MTFS as part of our work for financial resilience

# Materiality

In performing our audit, we apply the concept of materiality, following the requirements of International Standard on Auditing (UK & Ireland) (ISA) 320: Materiality in planning and performing an audit. The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. An item does not necessarily have to be large to be considered to have a material effect on the financial statements. An item may be considered to be material by nature, for example, when greater precision is required (e.g. senior manager salaries and allowances).

We determine planning materiality (materiality for the financial statements as a whole determined at the planning stage of the audit) in order to estimate the tolerable level of misstatement in the financial statements, assist in establishing the scope of our audit engagement and audit tests, calculate sample sizes and assist in evaluating the effect of known and likely misstatements in the financial statements.

We have determined planning materiality based upon professional judgement in the context of our knowledge of the Council. In line with previous years, we have calculated financial statements materiality based on a proportion of the gross revenue expenditure of the Council. For purposes of planning the audit we have determined overall materiality to be £1,621k (being 2% of gross revenue expenditure). Our assessment of materiality is kept under review throughout the audit process and we will advise you if we revise this during the audit.

Under ISA 450, auditors also set an amount below which misstatements would be clearly trivial and would not need to be accumulated or reported to those charged with governance because we would not expect that the accumulation of such amounts would have a material effect on the financial statements. "Trivial" matters are clearly inconsequential, whether taken individually or in aggregate and whether judged by any criteria of size, nature or circumstances. We have defined the amount below which misstatements would be clearly trivial to be £81k.

ISA 320 also requires auditors to determine separate, lower, materiality levels where there are 'particular classes of transactions, account balances or disclosures for which misstatements of lesser amounts than materiality for the financial statements as a whole could reasonably be expected to influence the economic decisions of users'. We have identified the following items where separate materiality levels are appropriate:

Balance/transaction/disclosure	Explanation	Materiality level
Disclosures of auditors' remuneration in the notes to the financial statements.	Due to public interest in these disclosures and the statutory requirement for them to be made.	£10,000
Disclosures of officers' remuneration, salary bandings and exit packages in the notes to the financial statements	Due to public interest in these disclosures and the statutory requirement for them to be made.	£10,000

Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements; Judgments about materiality are made in light of surrounding circumstances, and are affected by the size or nature of a misstatement, or a combination of both; and Judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered. (ISA (UK and Ireland) 320)

# Significant risks identified

An audit is focused on risks. Significant risks are defined by ISAs (UK and Ireland) as risks that, in the judgment of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Significant risk	Description	Audit procedures
<b>The revenue cycle includes fraudulent transactions</b>	<p>Under ISA (UK and Ireland) 240 there is a presumed risk that revenue streams may be misstated due to the improper recognition of revenue.</p> <p>This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p>	<p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at South Somerset District Council, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> <li>• there is little incentive to manipulate revenue recognition</li> <li>• opportunities to manipulate revenue recognition are very limited</li> <li>• The culture and ethical frameworks of local authorities, including South Somerset District Council, mean that all forms of fraud are seen as unacceptable.</li> </ul> <p>Therefore we do not consider this to be a significant risk for South Somerset District Council.</p>
<b>Management over-ride of controls</b>	<p>Under ISA (UK and Ireland) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities.</p>	<p><b>Work completed to date:</b></p> <ul style="list-style-type: none"> <li>• Review of accounting estimates</li> <li>• Review of journal entry process and selection of unusual journal entries for testing back to supporting documentation for months 1-11</li> <li>• Documentation of controls at entity and activity levels</li> </ul> <p><b>Further work planned:</b></p> <ul style="list-style-type: none"> <li>• Review of accounting judgments and decisions made by management</li> <li>• Review of journal entry process and selection of unusual journal entries for testing back to supporting documentation for month 12</li> <li>• Review of unusual significant transactions</li> </ul>

Page 30

"Significant risks often relate to significant non-routine transactions and judgmental matters. Non-routine transactions are transactions that are unusual, due to either size or nature, and that therefore occur infrequently. Judgmental matters may include the development of accounting estimates for which there is significant measurement uncertainty." (ISA (UK and Ireland) 315). In making the review of unusual significant transactions "the auditor shall treat identified significant related party transactions outside the entity's normal course of business as giving rise to significant risks." (ISA (UK and Ireland) 550)

# Significant risks identified (continued)

We have also identified the following significant risks of material misstatement from our understanding of the entity. We set out below the work we have completed to date and the work we plan to address these risks.

Significant risk	Description	Audit procedures
<p><b>Valuation of property, plant and equipment</b></p>	<p>The Council revalues its assets on a rolling basis over a five year period. The Code requires that the Council ensures that the carrying value at the balance sheet date is not materially different from the current value. This represents a significant estimate by management in the financial statements.</p>	<p><b>Work completed to date:</b></p> <ul style="list-style-type: none"> <li>• Review of management's processes and assumptions for the calculation of the estimate.</li> <li>• Review of the competence, expertise and objectivity of any management experts used.</li> <li>• Review of the instructions issued to valuation experts and the scope of their work</li> <li>• Review and challenge of the information used by the valuer to ensure it is robust and consistent with our understanding.</li> </ul> <p><b>Further work planned:</b></p> <ul style="list-style-type: none"> <li>• Discussions with valuer about the basis on which the valuation is carried out and challenge of the key assumptions.</li> <li>• Testing of data supplied to the actuary to ensure accuracy and completeness of information</li> <li>• Testing of revaluations made during the year to ensure they are input correctly into the Council's asset register</li> <li>• Evaluation of the assumptions made by management for those assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value.</li> </ul>
<p><b>Valuation of pension fund net liability</b></p>	<p>The Council's pension fund asset and liability as reflected in its balance sheet represent a significant estimate in the financial statements.</p>	<p><b>Work planned:</b></p> <ul style="list-style-type: none"> <li>• We will identify the controls put in place by management to ensure that the pension fund liability is not materially misstated. We will also assess whether these controls were implemented as expected and whether they are sufficient to mitigate the risk of material misstatement.</li> <li>• We will review the competence, expertise and objectivity of the actuary who carried out your pension fund valuation. We will gain an understanding of the basis on which the valuation is carried out.</li> <li>• We will undertake procedures to confirm the reasonableness of the actuarial assumptions made.</li> <li>• We will review the consistency of the pension fund asset and liability and disclosures in notes to the financial statements with the actuarial report from your actuary.</li> </ul>

## Significant risks identified (continued)

Significant risk	Description	Audit procedures
<p data-bbox="64 344 441 625">CIPFA has been working on the 'Telling the Story' project, which aims to streamline the financial statements and improve accessibility to the user. This has resulted in changes to CIPFA's 2016/17 Code of Practice on Local Authority Accounting in the United Kingdom ('the Code').</p> <p data-bbox="95 654 136 815" style="writing-mode: vertical-rl; transform: rotate(180deg);">Page 32</p>	<p data-bbox="464 344 1023 511">The main changes affect the presentation of the Comprehensive Income and Expenditure Statement ('CIES'), the Movement in Reserves Statement ('MIRS') and segmental reporting disclosures. A new Expenditure and Funding Analysis (EFA) has been introduced.</p> <p data-bbox="464 515 700 539">The key changes are:</p> <ul data-bbox="464 544 1038 1025" style="list-style-type: none"> <li>• the cost of services in the CIES is to be reported on basis of the local authority's organisational structure rather than the Service Reporting Code of Practice (SERCOP) headings</li> <li>• an EFA note to the financial statements provides a reconciliation between the way local authorities are funded and the accounting measures of financial performance in the CIES. The changes will remove some of the complexities of the current segmental note</li> <li>• other changes to streamline the current MIRS provide options to report Total Comprehensive Income and Expenditure (previously shown as Surplus and Deficit on the Provision of Services and Other Comprehensive Income and Expenditure lines) and removal of earmarked reserves columns.</li> </ul>	<p data-bbox="1058 344 1317 368"><b>Work to be completed</b></p> <ul data-bbox="1058 382 1980 696" style="list-style-type: none"> <li>• Document and evaluate the process for recording the required financial reporting changes to 2016/17 financial statements.</li> <li>• Review re-classification of the CIES comparatives to ensure in line with the Authority's internal reporting structure. Review appropriateness of revised grouping of entries within MIRS.</li> <li>• Test classifications of income and expenditure for 16/17 recorded within CIES. Test classification of income and expenditure within the new Expenditure and Funding Analysis (EFA) note to the financial statements.</li> <li>• Review the new segmental reporting disclosures within the 2016/17 financial statements to ensure compliance with the CIPFA code.</li> </ul>

# Other risks identified

Reasonably possible risks (RPRs) are, in the auditor's judgment, other risk areas which the auditor has identified as an area where the likelihood of material misstatement cannot be reduced to remote, without the need for gaining an understanding of the associated control environment, along with the performance of an appropriate level of substantive work. The risk of misstatement for an RPR or other risk is lower than that for a significant risk, and they are not considered to be areas that are highly judgmental, or unusual in relation to the day to day activities of the business.

Reasonably possible risks	Description of risk	Audit procedures
Operating expenses	Year end creditors and accruals are understated or not recorded in the correct period.	<p><b>Work completed to date:</b></p> <ul style="list-style-type: none"> <li>• Documentation and understanding of controls</li> <li>• Walkthrough of controls to confirm that controls are operating as described</li> </ul> <p><b>Further work planned:</b></p> <ul style="list-style-type: none"> <li>• Testing of post year end expenses for unrecorded liabilities within operating expenditure</li> <li>• Review of transactions before and after year end</li> </ul>
Employee remuneration	Employee remuneration accruals are understated	<p><b>Work completed to date:</b></p> <ul style="list-style-type: none"> <li>• Documentation and understanding of controls operating in the payroll system</li> <li>• Walkthrough of controls to confirm that controls are operating as described</li> <li>• Payroll trend analysis for the full year</li> </ul> <p><b>Work to be completed:</b></p> <ul style="list-style-type: none"> <li>• Review of Senior Officer remuneration disclosures</li> </ul>

Page 33

"In respect of some risks, the auditor may judge that it is not possible or practicable to obtain sufficient appropriate audit evidence only from substantive procedures. Such risks may relate to the inaccurate or incomplete recording of routine and significant classes of transactions or account balances, the characteristics of which often permit highly automated processing with little or no manual intervention. In such cases, the entity's controls over such risks are relevant to the audit and the auditor shall obtain an understanding of them." (ISA (UK and Ireland) 315)

---

# Other risks identified (continued)

## Going concern

As auditors, we are required to “obtain sufficient appropriate audit evidence about the appropriateness of management's use of the going concern assumption in the preparation and presentation of the financial statements and to conclude whether there is a material uncertainty about the entity's ability to continue as a going concern” (ISA (UK and Ireland) 570). We will review the management's assessment of the going concern assumption and the disclosures in the financial statements.

## Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in the previous sections but will include:

- Heritage assets
- Cash and cash equivalents
- Provisions
- Useable and unusable reserves
- Movement in Reserves Statement and associated notes
- Statement of cash flows and associated notes
- Financing and investment income and expenditure
- Taxation and non-specific grants
- Officers' remuneration note
- Leases note
- New note disclosures
- Related party transactions note
- Capital expenditure and capital financing note
- Financial instruments note
- Collection Fund and associated notes

# Value for Money

## Background

The Code requires us to consider whether the Council has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. This is known as the Value for Money (VfM) conclusion.

The National Audit Office (NAO) issued its guidance for auditors on value for money work for 2016/17 in November 2016. The guidance states that for local government bodies, auditors are required to give a conclusion on whether the Council has proper arrangements in place.

The guidance identifies one single criterion for auditors to evaluate:

*In all significant respects, the audited body takes properly informed decisions and deploys resources to achieve planned and sustainable outcomes for taxpayers and local people.*

This is supported by three sub-criteria as set out opposite:

Sub-criteria	Detail
Informed decision making	<ul style="list-style-type: none"> <li>Acting in the public interest, through demonstrating and applying the principles and values of sound governance</li> <li>Understanding and using appropriate cost and performance information (including, where relevant, information from regulatory/monitoring bodies) to support informed decision making and performance management</li> <li>Reliable and timely financial reporting that supports the delivery of strategic priorities</li> <li>Managing risks effectively and maintaining a sound system of internal control</li> </ul>
Sustainable resource deployment	<ul style="list-style-type: none"> <li>Planning finances effectively to support the sustainable delivery of strategic priorities and maintain statutory functions</li> <li>Managing and utilising assets effectively to support the delivery of strategic priorities</li> <li>Planning, organising and developing the workforce effectively to deliver strategic priorities.</li> </ul>
Working with partners and other third parties	<ul style="list-style-type: none"> <li>Working with third parties effectively to deliver strategic priorities</li> <li>Commissioning services effectively to support the delivery of strategic priorities</li> <li>Procuring supplies and services effectively to support the delivery of strategic priorities.</li> </ul>

---

# Value for Money (continued)

## **Risk assessment**

We have carried out an initial risk assessment based on the NAO's auditor's guidance note (AGN03). In our initial risk assessment, we considered:

- our cumulative knowledge of the Council, including work performed in previous years in respect of the VfM conclusion and the opinion on the financial statements.
- the findings of other inspectorates and review agencies,
- any illustrative significant risks identified and communicated by the NAO in its Supporting Information.
- any other evidence which we consider necessary to conclude on your arrangements.

We have identified a significant risk which we are required to communicate to you. This is set out overleaf.

Page 36

## **Reporting**

The results of our VfM audit work and the key messages arising will be reported in our Audit Findings Report and in the Annual Audit Letter.

We will include our conclusion in our auditor's report on your financial statements which we will give by 28 July 2017.

# Value for money (continued)

We set out below the significant risks we have identified as a result of our initial risk assessment and the work we propose to address these risks.

Significant risk	Link to sub-criteria	Work proposed to address
<b>Transformation Programme</b> There is a risk that arrangements are not sufficiently robust to deliver the overall Transformation Programme and safeguard the Council's investment and ongoing service delivery	This links to the Council's arrangements for planning finances effectively to support the sustainable delivery of strategic priorities and using appropriate cost and performance information to support informed decision making.	We will review the project management arrangements for ensuring the proper implementation of the new operational model and the assumptions used for the savings outlined in the Medium Term Financial Strategy

---

# Other audit responsibilities

In addition to our responsibilities under the Code of Practice in relation to your financial statements and arrangements for economy, efficiency and effectiveness we have a number of other audit responsibilities, as follows:

- We will undertake work to satisfy ourselves that the disclosures made in your Annual Governance Statement are in line with CIPFA/SOLACE guidance and consistent with our knowledge of the Council.
- We will read your Narrative Statement and check that it is consistent with the financial statements on which we give an opinion and that the disclosures included in it are in line with the requirements of the CIPFA Code of Practice.
- We will carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO instructions to auditors.
- We consider our other duties under the Act and the Code, as and when required, including:
  - We will give electors the opportunity to raise questions about your financial statements and consider and decide upon any objections received in relation to the financial statements;
  - issue of a report in the public interest; and
  - making a written recommendation to the Council, copied to the Secretary of State

We certify completion of our audit.

# Results of interim audit work

The findings of our interim audit work, and the impact of our findings on the accounts audit approach, are summarised in the table below:

	Work performed	Conclusion
<b>Internal audit</b>	<p>We have completed a high level review of internal audit's overall arrangements. Our work has not identified any issues which we wish to bring to your attention.</p> <p>We have also reviewed internal audit's work on the Council's key financial systems to date. We have not identified any significant weaknesses impacting on our responsibilities.</p>	<p>Overall, we have concluded that the internal audit service provides an independent and satisfactory service to the Council and that internal audit work contributes to an effective internal control environment.</p> <p>Our review of internal audit work has not identified any weaknesses which impact on our audit approach.</p>
<b>Entity level controls</b>	<p>We have obtained an understanding of the overall control environment relevant to the preparation of the financial statements including:</p> <ul style="list-style-type: none"> <li>• Communication and enforcement of integrity and ethical values</li> <li>• Commitment to competence</li> <li>• Participation by those charged with governance</li> <li>• Management's philosophy and operating style</li> <li>• Organisational structure</li> <li>• Assignment of authority and responsibility</li> <li>• Human resource policies and practices</li> </ul>	<p>Our work has identified no material weaknesses which are likely to adversely impact on the Council's financial statements</p>

Page 39

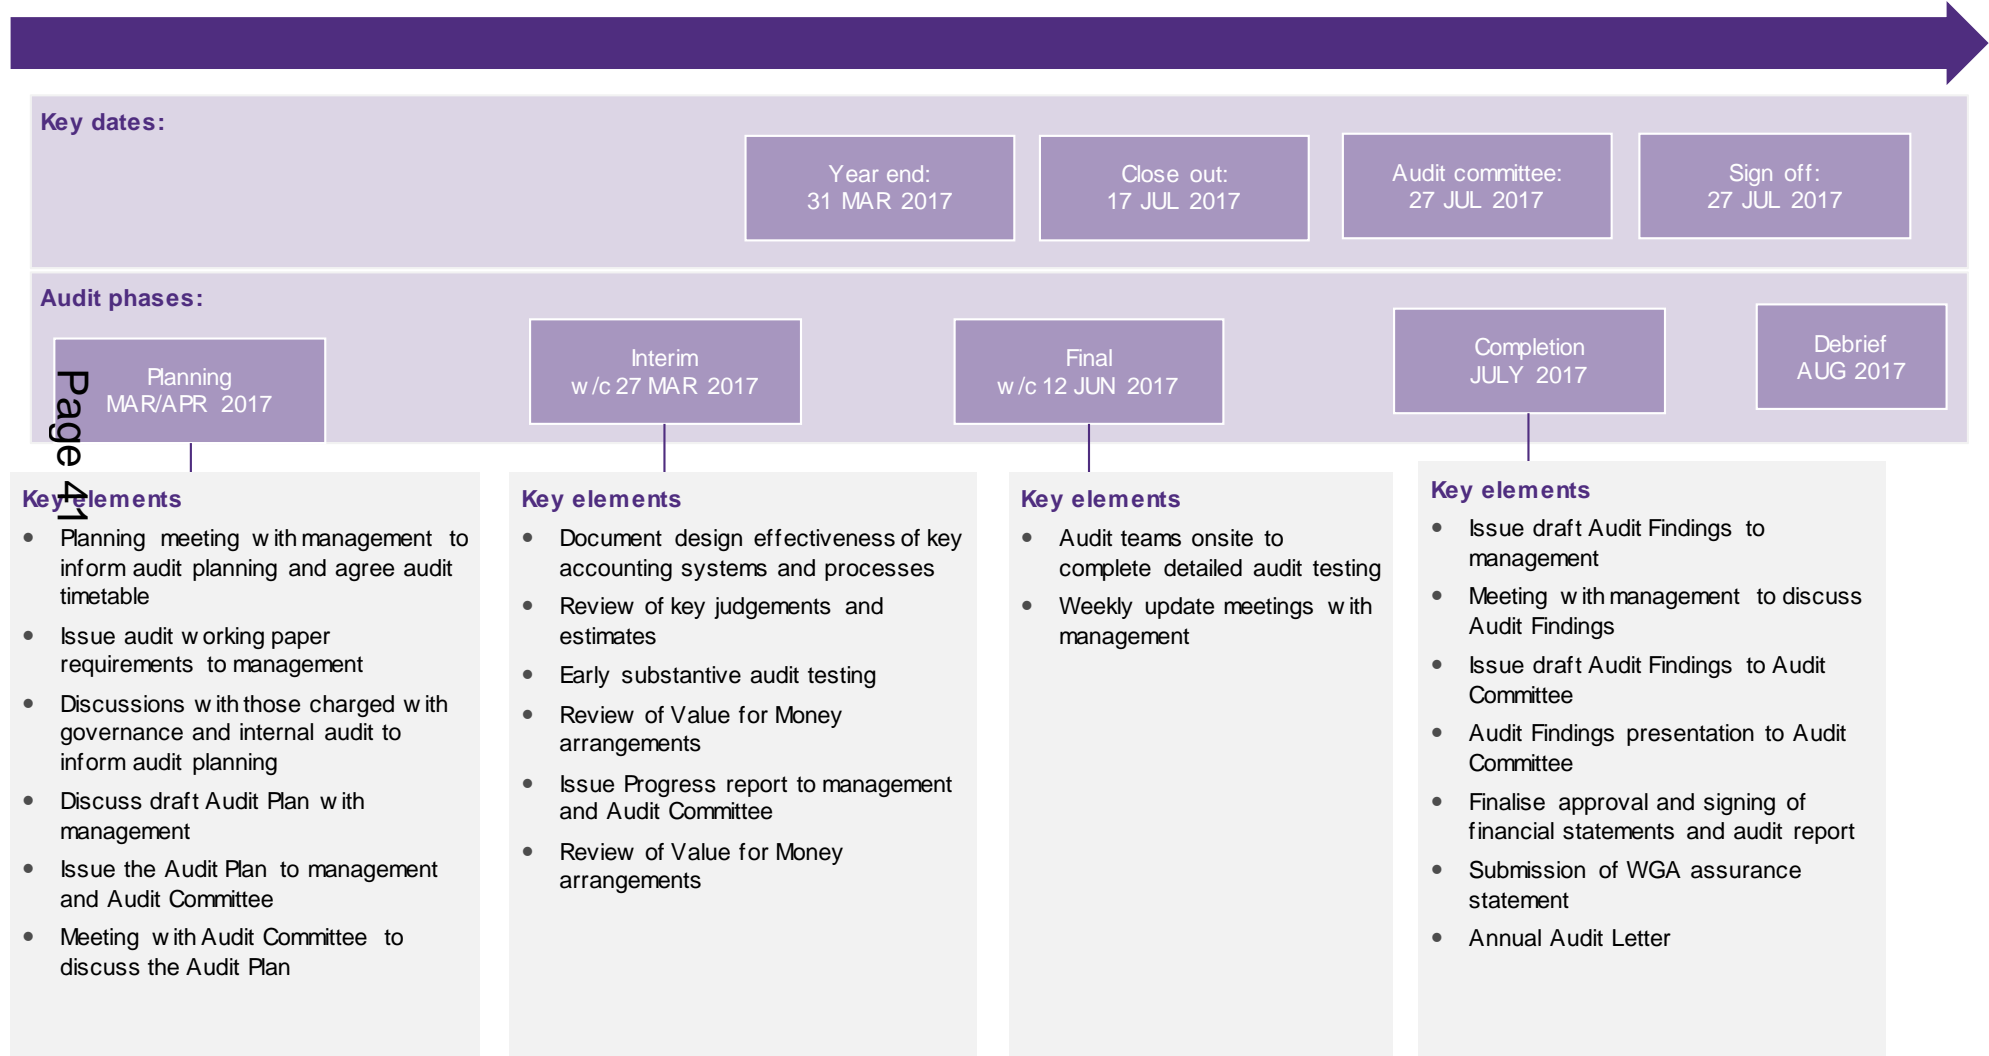

## Results of interim audit work (continued)

	<b>Work performed</b>	<b>Conclusion</b>
<b>Walkthrough testing</b>	<p>We have completed walkthrough tests of the Council's controls operating in areas where we consider that there is a risk of material misstatement to the financial statements.</p> <p>Our work has not identified any issues which we wish to bring to your attention. Internal controls have been implemented by the Council in accordance with our documented understanding.</p>	Our work has not identified any weaknesses which impact on our audit approach.
<b>Journal entry controls</b>	<p>We have reviewed the Council's journal entry policies and procedures as part of determining our journal entry testing strategy and have not identified any material weaknesses which are likely to adversely impact on the Council's control environment or financial statements.</p> <p>To date we have undertaken detailed testing on journal transactions recorded for the first eleven months of the financial year, by extracting 'unusual' entries for further review.</p>	<p>One issue has been identified that we wish to bring to your attention.</p> <p>We have identified a weakness in the journal review process. Whilst we are satisfied that a regular review is performed, this is performed by one individual. The reviewer's journals are not independently reviewed. We recommend that a separate independent review of the reviewer's journals is implemented.</p>
<b>Early substantive testing</b>	<p>We completed early substantive testing on the following areas:</p> <ul style="list-style-type: none"> <li>• Income transactions months 1-11</li> <li>• Operating expenditure transactions months 1-11</li> <li>• Employee remuneration transactions months 1-12</li> <li>• Journals testing months 1-11</li> </ul>	Our work has not identified any weaknesses which are likely to adversely impact on the Council's financial statements.

# The audit cycle

## The audit timeline

# Audit Fees

## Fees

	£
Council audit	49,276
Grant Certification	10,493
<b>Total audit fees (excluding VAT)</b>	<b>59,769</b>

## Our fee assumptions include:

- Supporting schedules to all figures in the accounts are supplied by the agreed dates and in accordance with the agreed upon information request list
- The scope of the audit, and the Council and its activities, have not changed significantly
- The Council will make available management and accounting staff to help us locate information and to provide explanations
- The accounts presented for audit are materially accurate, supporting working papers and evidence agree to the accounts, and all audit queries are resolved promptly.

## Grant certification

- Our fees for grant certification cover only housing benefit subsidy certification, which falls under the remit of Public Sector Audit Appointments Limited
- Fees in respect of other grant work, such as reasonable assurance reports, are shown under 'Fees for other services'.

## Fees for other services

Fees for other services detailed on the following page, reflect those agreed at the time of issuing our Audit Plan. Any changes will be reported in our Audit Findings Report and Annual Audit Letter.

## What is included within our fees

- A reliable and risk-focused audit appropriate for your business
- Invitations to events hosted by Grant Thornton in your sector, as well as the wider finance community
- Ad-hoc telephone calls and queries
- Regular contact to discuss strategy and other important areas
- A review of accounting policies for appropriateness and consistency
- Regular Audit Committee Progress Reports

# Communication of audit matters with those charged with governance

International Standard on Auditing (UK and Ireland) (ISA) 260, as well as other ISAs (UK and Ireland) prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table opposite.

This document, The Audit Plan, outlines our audit strategy and plan to deliver the audit, while The Audit Findings will be issued prior to approval of the financial statements and will present key issues and other matters arising from the audit, together with an explanation as to how these have been resolved.

We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via a report to the Council.

## Respective responsibilities

As an auditor we are responsible for performing the audit in accordance with ISAs (UK and Ireland), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance.

This plan has been prepared in the context of the Statement of Responsibilities of Auditors and Audited Bodies issued by Public Sector Audit Appointments Limited (<http://www.psa.co.uk/appointing-auditors/terms-of-appointment/>)

We have been appointed as the Council's independent external auditors by the Audit Commission, the body responsible for appointing external auditors to local public bodies in England at the time of our appointment. As external auditors, we have a broad remit covering finance and governance matters.

Our annual work programme is set in accordance with the Code of Audit Practice ('the Code') issued by the NAO and includes nationally prescribed and locally determined work (<https://www.nao.org.uk/code-audit-practice/about-code/>). Our work considers the Council's key risks when reaching our conclusions under the Code.

The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.

It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our communication plan	Audit Plan	Audit Findings
Respective responsibilities of auditor and management/those charged with governance	✓	
Overview of the planned scope and timing of the audit. Form, timing and expected general content of communications	✓	
Views about the qualitative aspects of the entity's accounting and financial reporting practices, significant matters and issues arising during the audit and written representations that have been sought		✓
Confirmation of independence and objectivity	✓	✓
A statement that we have complied with relevant ethical requirements regarding independence, relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	✓	✓
Material weaknesses in internal control identified during the audit		✓
Identification or suspicion of fraud involving management and/or others which results in material misstatement of the financial statements		✓
Non compliance with laws and regulations		✓
Expected modifications to the auditor's report, or emphasis of matter		✓
Uncorrected misstatements		✓
Significant matters arising in connection with related parties		✓
Significant matters in relation to going concern	✓	✓

# Appendix 1: Action plan

## Priority

**High** - Significant effect on control system

**Medium** - Effect on control system

**Low** - Best practice

Rec No.	Recommendation	Priority	Management response	Implementation date & responsibility
1	We have identified a weakness in the journal review process. Whilst we are satisfied that a regular review is performed, this is performed by one individual. The reviewer's journals are not independently reviewed. We recommend that a separate independent review of the reviewer's journals is implemented.	Medium	Agreed – The journals posted will now be reviewed by 2 people	April 2017 – S151 officer
