

Section 106 Obligations

Assistant Director: Martin Woods (Economy)
Service Manager: David Norris (Development Manager)
Lead Officer: Neil Waddleton, S106 Monitoring Officer
Contact Details: Neil.Waddleton@southsomerset.gov.uk or (01935) 462603

Purpose of the Report

Section 106 Officer to provide information on signed Section 106 agreements relating to development within Area West. Agreements containing financial contributions will be presented within the monitoring report (Appendix A), **however if any further detail was required on any other agreement it was agreed that this would be undertaken directly with the officer.**

Public Interest

Section 106 Obligations are a key aspect of most major planning development approvals granted by the Authority however they are also necessary to provide additional control in relation to smaller schemes. The items captured within Section 106 Obligations usually deal with the additional infrastructure costs that will be incurred within the area of the Authority arising from the completion of a development. Depending on the scale of the proposed development the sums of money associated with a Section 106 Obligations can be considerable.

This may take the form of changes to highways, contributions toward increased schools provision, creation/maintenance of open spaces, recreational areas and so on. The costs arising from these are often significant and require negotiation and settlement between officer and the developer, through the use of nationally agreed formulae.

There is a variety of ways in which these requirements can be delivered. Normally the developer makes a payment to allow the relevant authority to provide the requirement e.g. Schools or Play areas. Alternatively, the developer may be charged with completing the work directly for example a new highway junction.

By their very nature Section 106 Obligations require specified actions/payments to take place within a pre-defined timescale or event (known as 'triggers') and it is essential that the Section 106 officer has a system and processes in place that ensures the agreements are effectively managed.

Members will appreciate that the level of contribution that was secured from each development was dependent upon several factors, particularly the 'formula' that was being used for calculating the Sports, Arts and Leisure, Education and Highway contributions at the time of each application. It is also important to emphasise that it is very difficult to make meaningful comparisons between obligations that were sought on different developments, as each scheme has to be considered on its own merits.

Recommendation

That Members note and comment on the report and verbal update and endorse the actions taken in respect of the monitoring and managing of Section 106 Planning Obligations.

Background

A Section 106 Officer was appointed on 1 April 2010. This post sits within the planning team with the specific responsibility for ensuring that all requirements of S106 obligations, including the collection and spending of financial contributions are monitored and managed.

Additional Information

Since my last report there has been a significant legislation change that will affect the way that we seek financial planning obligations. Members may recall that when I was at the December 2015 Committee I highlighted a change to the way in which the District Council could be securing planning contributions/obligations from developers. In short, the government introduced guidance that sought to prevent local authorities requiring s106 contributions from schemes of 10 dwellings and below. This was subsequently challenged and the High Court decided that the government had not followed the correct procedures and this guidance was rescinded. The government challenged the High Court judgement at the Court of Appeal and they were successful in getting this ruling overturned.

This ruling meant that sites of fewer than 10 homes will no longer have to make an affordable homes contribution and in addition the council will not be seeking contributions towards local community and leisure projects from these smaller schemes unless there is clear and robust evidence to justify an exception.

CIL Regulations (2011, amended 2013 & 2014)

From April 2015, no more contributions may be sought/collected in respect of a specific infrastructure project or a type of infrastructure through a S106 agreement if 5 or more obligations have been entered into since April 2010 and it is a type of infrastructure that is capable of being funded by CIL.

In Area West this legislation change will mean that no more contributions will be sought for swimming pool enhancements at CRESTA or funding towards enhancements AGP at CRESTA through future application processes.

Projects

Members may wish to note that the main projects delivered/under way or priorities as a result of appropriate collected S106 monies are:

Chard

- New temporary changing rooms installed at Jocelyn Park.
- Resurfacing AGP project at CRESTA completed May 2016.
- Improvements to Snowden Park planned for 2016/17. Awaiting site survey and then designs can be produced.
- Streetscene to clear and reinstate Plot 5, Jarman Way to create a new area of open space.

Crewkerne

- Town Council producing strategy to improve playing pitch provision, including floodlighting the rugby pitch at Henhayes.
- Monies allocated towards a skate park at Happy Valley. Consultation, plans approval and quotes obtained by Town Council. Fund raising has begun.

Ilminster

- Main priority to deliver master plan to develop play area, youth facilities, changing facilities and playing pitches at the Recreation Ground.
- Football pavilion at Shudrick Lane.
- Improvements to the play area at Winterhaye Lane.

Misterton

- Play area plans approved.

Merriot

- Parish Council undertaking review of community facilities.
- Area Development working with the Hall Committee to improve/enhance facilities.

Financial Implications

No direct financial implications from this report however members will be aware that ineffective management of planning obligations does have the potential to require the district council to refund contributions to developers.

Corporate Priority Implications

The effective management of planning obligations will be beneficial in achieving all of the Councils Corporate Priorities.

Carbon Emissions & Climate Change Implications

Section 106 Planning Obligations have a key role in delivering sustainable communities thereby contributing to a reduction in carbon emissions and helping to adapt to climate change.

Equality and Diversity Implications

Section 106 Planning Obligations have a key role in delivering sustainable communities thereby ensuring access to facilities, homes and services for all members of our community.
