### **Purpose of the Report**

The Overview and Scrutiny Committee had noted the cumulative number of requests for disposals (where consent was being sought from a Housing Association to dispose of a property that was formerly owned by the Council) and had concerns of the gradual erosion of rural social housing. A review of the process surrounding the disposal of third party properties was conducted; this draft report outlines the review methodology and the recommendations of the Task and Finish group.

### **Action Required**

Scrutiny Committee members are asked to consider the draft report (as attached) of the Task and Finish Group and endorse the recommendations to District Executive.
