### **Purpose of the Report**

To present to Licensing Committee the proposed fees for the 2016/17 financial year. The fees having been set at a level to ensure that the Council's costs in providing the Licensing Service are being recovered in full, wherever the relevant legislation permits.

### **Public Interest**

Scrutiny Task and Finish Groups are a way of allowing elected members of South Somerset District Council to consider policy matters in depth, gathering information and evidence, before making recommendations to District Executive. This report draws upon the work carried out by such a group of members who looked at two aspects of the Council's Licensing function. Firstly, adopting a principle of total cost recovery where possible within the service and secondly, reviewing the current delegation arrangements with Town Councils. As members will be aware the report on termination of the delegation agreement with the Town Council's was presented to December's Full Council meeting and was approved. This report will therefore concentrate on the fee aspect of the work.

### **Recommendations**

That Licensing Committee:

1. Note the further work carried out by the Licensing Manager and the Financial Services Team.
2. Agree the set of fees and charges be recommended for inclusion in the budget proposals for 2016/17.

### **Background**

A Scrutiny Task and Finish Group was established by South Somerset District Council's Scrutiny Committee and consisted of the following elected Members:

Councillors Martin Wale (Chair)

Jason Baker

Mike Beech

Gye Dibben

Val Keitch

Tony Lock

David Norris

The Task and Finish Group was commissioned to look into 2 specific elements of the authority's Licensing Service, namely:

- the potential of introducing a principle of total cost recovery where possible and to propose amendments to the current fee structure to reflect this ; and
- reviewing the current delegation arrangements that exist between South Somerset District Council (SSDC), Wincanton Town Council (WTC) and Yeovil Town Council (YTC).

This report outlines the recommendations of the Task and Finish Group and the evidence members considered in reaching their recommendations.

In the current financial climate for local authorities, all avenues to maximise income in order to maintain service standards must be explored – reviewing Licensing fees and charges with a view to establishing total cost recovery is an important part of this ongoing work.

### **Review methodology:**

As with all Scrutiny Task and Finish work, members first agreed their Terms of Reference, in this case, that they would:

- conduct the review as commissioned by the Scrutiny Committee;
- submit regular update reports to the Scrutiny Committee;
- Conduct detailed research and analysis in order to make well-evidenced recommendations to the Executive, Licensing Committee and Council as appropriate;
- To engage members, officers, members of the community and external witnesses in the review as appropriate.

In addition to these more general Terms of Reference, members agreed the following specific review Aims and Objectives:

- To fully understand the proposals of the Licensing Service operating on a total cost recovery basis, to include the legislative framework and ethical implications.
- If the principle of total cost recovery is accepted, then this Task and Finish Group will aim to make evidence based recommendations to the relevant decision making bodies, outlining a schedule of fees for the Licensing Service that allows for total cost recovery, where possible. Members must ensure that the authority has robust evidence to show the exact cost and the correlation between service costs and the fees charged.
- To better understand the national picture in relation to setting fees for Licensing Services, such as government guidance and legislation, and to address any issues that may improve the experience of local authorities through bodies such as the LGA.
- To look at other areas of potential income generation such as introducing charges for pre-application advice and providing a ‘check and send’ service.
- The review will also look to address the recommendations of an Internal Audit report of the Licensing Service which indicated that the practice of delegating some licensing functions to Yeovil and Wincanton Town Councils should be reviewed. The

review of this particular element should look to assess if this practice meets the needs and expectations of South Somerset District Council as well as those of our customers.

Members were clear that this review did NOT include looking at the setting of Taxi Fares – this is an entirely separate issue.

Members of the Task and Finish Group decided to conduct the review in two phases – the first of which would consider the issue of Licensing fees and charges, the second would investigate the issue of licensing functions delegated to Town Councils. Only phase one is relevant to this report.

### **Phase One: Establishing a Principle of total cost recovery where possible within the Licensing Service.**

#### **Service Context**

The cost to the Council of the Licensing Service last financial year is £89.5k and about 21% of costs within the service are not covered by fees – the ambition of the Service Manager is to reduce this to between 5 and 10% and how to achieve this is one of the main objectives of this Task and Finish Group.

Some fees are statutory and were set in 2005 – these fees don't cover the costs of administering the service but at present, they can't be changed – Local Authorities have been consulted on these fee levels, but there was a poor response nationally to the consultation and the Government took this to mean that there was no call to amend the statutory fee levels. The Local Government Association (LGA) are currently doing some work in this area and a recommendation of this Task and Finish review is that their findings are reported to the LGA to support the ongoing lobbying of central government for a more realistic fee structure.

Where fees are not set by a statutory framework, there is some local discretion. However, fees must only cover costs and there must be no profit or surplus generated. Each regime needs clear separation.

Members were reminded of the need to be aware of the possibility of legal challenge to any proposed changes to Licensing fees and charges – any fees generated must accurately reflect the actual cost of delivering the service, fees should not be set to generate a surplus but if a surplus is generated, it must be used for service enhancement and not used to cross-subsidise other services. Consistent generation of a surplus should be reflected in reduced fees and charges to the customer.

To allow members to make sound evidenced based proposals for an amended fee structure, the Licensing Manager, working with finance officers have produced a spreadsheet for every licence to show the time taken to process, this data has been collated along with the number of licences processed. This then shows an hourly rate that can be reflected in the schedule of fees and charges. The collation of this data formed a vital part of the evidence considered

by the Task and Finish Group and will enable the authority to defend any potential challenges.

### **Total Cost Recovery**

Members of the Task and Finish Group were supported by the Licensing Manager in this element of their work. The first meeting of the process set out the statutory context within which Licensing Fees and Charges are set.

At the first Task and Finish Group meeting, members established their support for a more rigorous approach to operating Total Cost Recovery where possible. Based on this, officers have developed a robust method for the setting of fees.

Across the Licensing regimes, the power to levy a fee is given to the Council by the relevant legislation. With the exception of the Licensing and Gambling Acts, the Council has discretion as to the maximum level of fee it may charge, but in all cases, fees must be reasonable and proportionate to the cost of the processes associated with a licensing scheme. As already mentioned elsewhere in this report, under no circumstances can the Council use fees to make a profit or act as an economic deterrent to deter certain business types from operating within its area.

In its interpretation of the relevant legislation the Council has had regard to the Provision of Services Regulations 2009 (PSR 2009) and established case law such as R (Hemming and others) v Westminster Council.

Where locally set fees are not covered by the PSR 2009 (e.g. Taxi licensing) the principles of the Regulations have still been applied to the fee construction.

### **Method of fee construction**

A rational system of apportionment of costs to calculate the fee level for each individual type of application received and authorisation issued is proposed by the Task and Finish Group. This system of fee calculation is to be kept under constant review and amended whenever changes in procedures or processes occur.

The fee construction system contains a combination of four elements:

- Application Processing,
- Consumables,
- Administration,
- Monitoring Compliance.

### **Application Processing**

Broadly this element of the fee construction is the time taken to process an application from initial enquiry to issue of the decision. It includes the time taken to complete the administration tasks of receiving correspondence, updating the records database with

application details and officer actions, processing of payments, production and dispatch of documents including the notice of the final determination of the application.

The time allocated to the consideration (including any inspections and/or consultations/negotiations that may be required) and determination of the application by one of the officers is also reflected in the total cost.

At present no additional cost is allocated to any application that requires determination by a Committee. This cost element is included within the fee every time there is the physical submission of an application.

### **Consumables**

The cost allocated to this element of the fee represents any specialist materials or equipment that may be required such as the identification plates for Hackney Carriage & Private Hire Vehicles.

Not all fees carry a consumables cost as they may not require any specialist materials and all normal stationary items are already included within the on costs described earlier.

As with Application processing above this cost element makes up part of the fee every time an application is submitted

### **Administration**

This element represents the time and costs allocated year on year to maintenance of the regime rather than those activities specific to the processing of an application. It is made up of allocations of time and costs for generic activities as well as the more detailed provision of advice & guidance to and the processing of complaints from, service users and the public/partner agencies.

Also included within this element is the time allocated to the review and maintenance of Council Policies and Officer Guidance (including relevant training for Officers and Members). Regime wide administration tasks such as fee calculation, website maintenance, servicing regime specific forums and quality control measures are also taken into account. Where an authorisation is issued for a period in excess of one year the annual administration element will be included with the fee levied.

### **Monitoring Compliance**

This element comprises of the activities allocated to the monitoring of compliance with any authorisation issued. It is levied against any valid Licence on an annual basis. It includes dealing with complaints, pro-active monitoring (including inspections) and joint operations with partner agencies.

In accordance with case law and the Provision of Services Regulations no fee is levied in respect of enforcement action against unauthorised activities as the Council considers that

the costs of defending appeals in the magistrate's court or via judicial review can be recovered through the courts.

With all of the above elements continual training of officers and reviews of processes are undertaken to ensure that the necessary procedures are completed in as quick a time as possible without reducing the professionalism and legality of the service

### **Review of fee levels**

The Task and Finish Group recommend that the Licensing Manager will review in detail fees and charges annually to ensure that they remain reasonable and proportionate. All proposed fee levels are scrutinised by Members through the democratic process before adoption.

### **Over or Under Recovery**

In all cases where the Council has discretion over fee levels the Council seeks to set fees to achieve full cost recovery. Should an over or under recovery be identified the Council will redress the imbalance through future fee setting. Timescales for introducing alterations to fee levels in such circumstances will be set, where possible to minimise impact upon businesses and or local taxpayers.

### **Conclusions on current fee levels**

The statutory fees (those set by Government) are not adequate to cover the Council's costs in dealing with applications and members agreed at the D/X meeting in December to lobby, through the LGA, to request a reassessment of all Statutory Fees in relation to Licensing. The non- statutory fees are also not enabling total cost recovery in dealing with the various licensing regimes. The following fees are therefore proposed in order to begin to address this issue.

**Fees – Advertising Costs**

a) For charitable purposes, for example commemorative occasions, it is likely the cost of advertising the Order will be payable by the organisers; however this is at the discretion of the Assistant Director (Environment)

b) For events which are for private gain, the full cost of advertising the Order will be payable

c) For events that are primarily charitable, but where, for example, market pitches are sold and the pitch users are only present for private gain, it is likely the cost of advertising the Order will be payable by the organisers; however this is at the discretion of the Assistant Director (Environment)

Advertising costs, if applicable, will be invoiced to the applicant direct.

## **Financial Implications**

A key element of the Council Plan is to deliver cost effective, well managed services to our residents, to achieve this, fees and charges must be set at a level which adequately covers our costs.

The proposed amendments to the fees and charges applied within the Licensing Service will be included in the budget papers for 2016/17 where all financial implications will be fully explored. The Fees and Charges Register will need to be amended (if approved) to incorporate the appropriate Licence charges.
