

## **8. Improving Access to Primary Care Services in Somerset**

### **Purpose of the Report**

The Primary Care Trust is seeking views on plans to develop a new type of health centre in Somerset to improve access for patients to general practitioner and other primary care services. A representative from the Primary Care Trust will be present at the meeting to answer member questions.

### **Action Required**

That members discuss the attached consultation paper and formulate views to inform the decision on which services should be provided in the new Health Centre and where it will be located. Scrutiny Committee comments will be incorporated into the Council's response.

### **Report**

A copy of the information and feedback document 'Have Your Say' is attached.

**Background Papers:**            *None*
